UNIT DESCRIPTIONS

HLTAID003 – Provide first aid

This unit describes the skills and knowledge required to provide a first aid response to a casualty. The unit applies to all workers who may be required to provide a first aid response in a range of situations, including community and workplace settings.

SISSSPT201A – Implement sports injury prevention

This unit describes the performance outcomes, skills and knowledge required to implement an effective injury prevention program. It focuses on contributing to injury surveillance, implementing intervention measures and evaluating the effectiveness of these measures.

This unit applies to those working in a sport and recreation environment. It applies to sports trainers who are responsible for supporting improvement in athlete performance and making sport safer in a sport specific training or competition setting such as on the playing field, court or open or enclosed areas at sporting events.

SISSSPT302A – Provide initial management of sports injuries

This unit describes the performance outcomes, skills and knowledge required to provide an immediate response to sports injuries in training or competition situations until the arrival of a health care professional or paramedic. It includes carrying out an initial assessment, managing injuries in line with organisational procedures and best practice and completing reporting requirements.

This unit applies to those working in a sport and recreation environment. It applies to sports trainers who are responsible for providing initial management of sports injury for athletes in a sport-specific training or competition setting such as on the playing field, court or open or enclosed areas at sporting events.

SISSSPT303A – Conduct basic warm-up and cool-down programs

This unit describes the performance outcomes, skills and knowledge to implement basic warm up and cool down programs incorporating stretching to assist athletes to prepare for activity and also aid in post activity recovery.

This unit applies to those working in a sport and recreation environment at a local, state or national level. It applies to personnel providing sports trainer support in a sport setting such as on the playing field, court, change rooms, open or enclosed areas at sporting events, accommodation venues or in

transit, with a responsibility for providing programs to assist with pre-activity preparation and post-activity recovery for athletes.

SISSSPT304A – Tape ankle, thumb and fingers

This unit describes the performance outcomes, skills and knowledge required to apply taping techniques to the ankle, thumb and fingers to assist athletes in relation to ongoing injury prevention and post-injury support and management.

This unit applies to those working under some supervision in a sport and recreation environment. It applies to personnel working as sports trainers who are responsible for providing injury treatment for athletes in a sport-specific training or competition setting such as on the playing field, court, change rooms, open or enclosed areas at sporting events, accommodation venues or in transit.

SISSSPT305A – Support sports injury management

This unit describes the performance outcomes, skills and knowledge required to assist health care professionals with the ongoing management of injured athletes. It also covers the provision of ongoing monitoring of relatively minor injuries such as cuts and abrasions where a professional diagnosis is not indicated.

This unit applies to those working in a sport environment. It applies to sports trainers who are responsible for providing sports trainer support in a sport setting such as on the playing field, court or open or enclosed areas at sporting events.

SISSSPT307A – Conduct advanced taping

This unit describes the performance outcomes, skills and knowledge to apply taping and bracing techniques including knee joints, Achilles, shoulders and elbows to assist athletes in relation to ongoing injury prevention and post-injury support.

This unit applies to personnel working autonomously as sports trainers who are responsible for performing pre- and post-event taping as part of providing injury prevention and treatment for athletes, and providing treatment to assist with injury rehabilitation in a sport-specific training or competition setting such as on the playing field, court, change rooms, open or enclosed areas at sporting events, accommodation venues or in transit.

SISXRSK301A – Undertake risk analysis of activities

This unit describes the performance outcomes, skills and knowledge required to undertake a risk-analysis process in relation to an activity and in accordance with an organisation's risk-management policies and procedures. In this context, the risk-analysis process is conducted using structured analysis methodology according to the current Australian and New Zealand Standard.

This unit applies to those who work in a range of roles and settings in the sport, fitness and recreation industry. This may include those working in after-school or holiday-care programs in a range of locations, in coaching activities or those undertaking a role in outdoor recreation activities, such as camps and other guided activities as well as indoor recreation and fitness activities.

SISXWHS101 – Follow work health and safety policies

This unit describes the performance outcomes, skills and knowledge required to apply general work health and safety requirements in the workplace. It describes generic work health and safety responsibilities applicable to employees without managerial or supervisory responsibilities.

This unit applies to those working under supervision in a range of sport, fitness and recreation environments. This may include those working as assistants in after-school or holiday-care programs in a range of locations, those assisting a responsible person in coaching or officiating activities or those undertaking a supporting role in indoor recreation and fitness activities, as well as outdoor recreation activities, such as camps and other guided activities.

HLTREM513C – Provide remedial massage treatment to athletes

This unit of competency describes the skills and knowledge required to administer remedial massage treatments for athletes.

SISSSCO512 – Assist athletes to prevent and manage injury and illness

This unit describes the performance outcomes skills and knowledge required enable coaches to assist their athletes with injury prevention and provide strategies to deal with illness and injury.

This unit applies to those personnel who are responsible for coaching athletes at a high performance level. Personnel will already have achieved senior level coaching accreditation through their NSO.

SISSCO307 – Provide nutrition information to athletes

This unit describes the performance outcomes, skills and knowledge required to enable coaches to provide information to support their athletes to apply the principles and practices of nutrition to achieve peak performance in the relevant sporting activity.

This unit applies to those working autonomously and within supervisory roles in a sport and recreation environment. It applies to personnel who are responsible for coaching athletes in a sport-specific training or competition setting.

SISSCO308 – Support athletes to adopt principles of sports psychology

This unit describes the performance outcomes, skills and knowledge required to enable coaches to provide information to support their athletes to apply the principles and practices of nutrition to achieve peak performance in the relevant sporting activity.

This unit applies to those working autonomously and within supervisory roles in a sport and recreation environment. It applies to personnel who are responsible for coaching athletes in a sport-specific training or competition setting.

SISSSTC301A – Instruct strength and conditioning techniques

This unit describes the performance outcomes, knowledge and skills required to use drills, exercises and activities to instruct strength and conditioning techniques to individual athletes or groups of athletes according to their sport-specific needs, or those undertaking fitness programs to achieve personal fitness goals.

This unit applies to coaches working with individuals or teams. It also applies to fitness instructors who provide a range of fitness programs and services to individuals or groups. The unit is applicable to those working with sporting groups, in fitness centres, gyms or autonomously in the fitness industry.

CERTIFICATE III IN SPORTS TRAINER

About ISA

The International Sports Academy (ISA) was officially opened in 2005 and has been appointed as the sole partner in Singapore by the United States Sports Academy (USSA), to provide quality academic sports certifications and diplomas. The ISA was founded in order to meet the growing need for sports education in Singapore. With the growing interest in sports to promote a healthier lifestyle and a means of social cohesion, the sporting industry has grown substantially over the past years. The ISA provides the much needed knowledge and skills required to empower individuals with the right tools to achieve success in the sporting industry today.

Our Mission

Preparing the next generation of sports leaders for the industry of tomorrow.

Our Vision

To become the region's leader in sports education, providing the tools to empower individuals with both knowledge and skills required to achieve success in the sporting world.

Our Values

PASSION | PURPOSE | PROGRESS

Our Culture

An environment where our passion for sports meets the love of learning.

Where success is not quantified by just the end result, but rather by the calibre of the pursuit.
